Study Tour Topics

Management training in the form of study tours offered by Carl Duisberg Centren involves the organization of seminars and corporate visits for foreign management and technical personnel. This unique program offers managers the opportunity to experience Germany's business practices first-hand through corporate presentations, company visits and lectures.

We work closely with our partners to determine goals and industry-related needs and expectations, and – using our network of corporate partners – design the programs accordingly. All our programs are 'tailor made' to the needs of visiting delegations.

Objectives

- Targeted practice-oriented further professional development in the field of management skills
- Insight into the latest developments in the field of management
- Consolidation of intercultural competences
- Learning in German high tech companies
- Initiating business contacts and finding suitable business partners
- Benchmarking with innovative SMEs

Target Group

- Managers, decision makers, experts and project managers in business and public administration.

Our study tours comprise seminars and benchmarking visits to companies. The following examples illustrate the topics of two study tours:

Study Tour: Engineering and Optimization of Production*

1. Improving and monitoring production processes
2. Initiating innovations
3. State of the art technology
4. Quality assurance
5. Continuous improvement processes

Study Tour: Logistics*
